

Sage 50

Cloud Accounting Factsheet

M+A Partners has been helping clients to grow their businesses and achieve their ambitions for almost a century - and we're immensely proud of our history. We're a forward-looking firm with an emphasis on innovation, new technology and finding pioneering ways to give our clients the best possible service.

Our Norfolk-based firm is led by nine partners who are some of the most high-profile and well-respected experts in their fields locally, supported by a talented team of over fifty staff.

We have a well-earned reputation for building excellent relationships with clients and the wider business community. That has always been, and continues to be our number one priority.

What's new in Sage 50 Accounts?

The latest version of Sage 50 Accounts includes major new functionality in the features you use on a daily basis as well as access to a growing catalogue of brand-new add-ons, so you can truly customise your accounting software to the needs of your business.

New features include:

+ Improved error correction

Everybody makes mistakes and there's nothing more frustrating than realising that you need to delete and start something again. But the latest functionality within Sage 50 Accounts means that is a thing of the past. You can now quickly and easily edit journals, un-allocate credits and payments from an incorrect invoice and track which users have edited transactions. Meaning it's never been easier to keep your accounts accurate and up-to-date.

Plus, you can feel comfortable knowing that you can quickly review what's been edited, by who and when.

+ Surfacing information

Getting the right information when you need it is crucial to running your business. The latest version of Sage 50 Accounts means it's never been easier to analyse data without the need to source it from various parts of the software or create workarounds. New columns and fields mean more efficient data analysis and reduced frustration.

+ Drill down on aged debtors and creditors

Get more control of who owes you money and who you owe money to, without the need to move in and out of different screens. A more streamlined process makes it easier to get insight into your cash flow at the click of a button.

+ Streamlined dialogue boxes

Streamlined dialogue boxes puts the power of Sage at your fingertips. It's now easier than ever for you to find the information you need quickly, and work on it effectively, without having to learn or remember what to do. It's clearer, simpler and more intuitive than ever before.

+ User interface consistency

A streamlined and organised workspace is important to everyone and that shouldn't stop at your accounts software. The latest developments to Sage 50 Accounts mean you can customise exactly what you want to see when using the programme and that will be remembered when you log out. So, no more spending time re-setting your display to fit how you work.

+ How can you enhance the power of Sage 50 Accounts?

The latest version of Sage 50 Accounts is developed to work seamlessly with our catalogue of add-ons, like Credit Hound Express for example, so you can customise your business process and truly optimise how Sage 50 Accounts works for you.
