Accounting Services

M+A Partners has been helping clients to grow their businesses and achieve their ambitions for over a century - and we're immensely proud of our history.

We're a forward-looking firm with an emphasis on innovation, new technology and finding pioneering ways to give our clients the best possible service.

Our Norfolk-based firm is led by nine partners who are some of the most high-profile and well-respected experts in their fields locally, supported by a talented team of over one hundred staff.

We have a well-earned reputation for building excellent relationships with clients and the wider business community. That has always been, and continues to be, our number one priority.

M+A Partners offers a comprehensive accounting service that ensures all compliance issues are addressed and tax saving opportunities maximised. In addition, we can identify improvements to your accounting systems and controls to help you run your business more efficiently.

What M+A Partners can do for you:

- + Use our expertise to prepare a professional and accurate set of accounts to meet your deadline;
- + Offer practical ways to improve your accounting records;
- + Review and extract relevant information to help you develop your business;
- + Provide detailed financial information for future reference and assist with bank presentations; and
- + Assign an experienced tax team to your account, available to answer your questions throughout the year.

M+A Partners provides accountancy services covering a wide range of sectors from farming to financial services, and from real estate to retail. Our clients are as diverse as the sectors they cover, ranging from small sole traders to large corporate groups.

Our professional staff use the latest accounting software to prepare accounts on a timely basis and to a high standard, ensuring that all regulatory requirements are met.

We also have experience of working with clients who have to adhere to specific accounting regulations including charities, solicitors, limited liability partnerships and academies.

Ensuring clients meet their regulatory accounting obligations is an important part of our work, but we provide much more than just a compliance service. Having, and understanding, accurate and up to date financial information is key to the management of all businesses. We meet with clients to discuss their accounts, detailing how the figures have been prepared, and highlighting the relevant information required to develop their operations. In addition, we frequently assist in presenting financial information to bankers, investors, trustees and other stakeholders.

We discuss any weaknesses or issues that may have been identified during our work and offer practical improvements to the accounting records, systems and controls maintained to develop financial procedures.

At M+A Partners we assign a dedicated accounts and tax team to advise and support you and answer your questions throughout the year. Our collaborative approach means that if your partner or senior manager is unavailable, you will be able to speak to another member of the team who will be able to help.

This is just a brief outline of our service offering. If you would like us to further discuss your accounting requirements, please contact:
