Is your construction business eligible for Research & Development (R&D) tax relief?

If you can answer yes to any of the following questions you may qualify for R&D tax relief:

Please tick box ✓

- Do you carry out any form of technical or scientific problem solving?
- Do you have to try and think of solutions to overcome technical issues such as restriction to site access?
- Are you using existing materials but in a new or novel way?
- Are you using renewable materials but having to ensure they meet health and safety standards, such as fire or acoustic standards?
- Have you come up with novel designs?
- Have you developed any construction methods or processes?
- Are you trying to improve sustainability and meet new sustainable eurocodes/legislation?
- Have you had to develop any processes or designs to accommodate health and safety concerns, such as hazardous material or confined spaces?
- Have you had to develop any technical solutions to automate processes and/or reduce labour costs?
- Have you designed or developed any bespoke structures?
- Have you had any technical problems with regards to installation of materials/structures/panels etc?
- Have you had to upgrade any systems/processes which historically have not advanced much over the years e.g. the technology behind form work systems?
- Do you carry out any work on listed buildings where you have had to operate within a number of constraints?

- Have you ever had to develop/refine the design of building processes to improve accuracy and meet reduced tolerances?
- Have you developed new software processes to assist/improve design?
- Have you ever had to develop your design or processes to accommodate unforeseen conditions or risks?
- Have you ever had to develop a unique way of modelling a scenario or system?
- Have you ever had to analyse, design or construct something on a scale unseen before/uncommon in industry?
- Have you ever had to develop products and design/construction techniques to meet changing or new regulations? (e.g. Eurocodes/British standards and Network Rail/National Grid regulations)
- Do you carry out design work?
- Are you using existing processes/methods/techniques in a unique way?
- Are you combining two or more existing processes/methods/techniques in a unique way?
- Have you developed processes or systems to make them more resource efficient?
- Have any other companies asked you to undertake design/feasibility/construction processes to assist with any part of their projects?
- Do you subcontract anyone to carry out design, feasibility or construction work for you?
- Are you renowned within industry for your expertise surrounding a certain type of design, process or material?
- Do your analytical/design methods or construction processes use cutting edge technology?
- Are you using new materials, design processes or construction techniques?
