services**

M+A Partners' approach to corporate services is unique. We have developed a dedicated entrepreneur focused team of highly experienced specialists, working closely together to deliver seamless, proactive and efficient planning, finance, accounting and taxation advice to business owners and management.

What M+A Partners can do for you

+ Corporate Finance and Business Strategy

Buying, selling and valuing companies or raising money are not everyday occurrences. Our team members are highly experienced in corporate finance, valuation and strategic advice and are there to guide you through the process, working together to achieve your intended outcome.

+ Tax Planning

Taxation is a major cost of running a successful business. We develop, maintain and adapt an ongoing tax efficient strategy to reduce that cost throughout the life of the business.

+ Management Information

A business without management information lacks an informed insight into where it has been and where it is heading – making future planning a more challenging process. By combining experience with accounting data we help ensure your business stays on track.

Corporate Finance and Business Strategy

M+A Partners Corporate Finance services are headed up by Partner, Scott Lindsay. Scott and our other experts work as part of your team to deliver objective and knowledgeable advice, supporting your strategies and maximising the value of your business.

Our advice is tailored to your exact requirements, be it arranging a £500,000 bank loan, through to acquisitions and disposals in excess of £100 million. It falls into four broad areas:

Maximising value
